Carl Ott: grrr - i think not - maybe dial back in?

00:23:30.610,00:23:33.610

Carl Ott: tried - didn't work

00:23:55.271,00:23:58.271

Carl Ott: there's probably some DTMF star code you could try...

00:24:58.193,00:25:01.193

Carl Ott: welcome back Dave A !

00:30:20.156,00:30:23.156

Carl Ott: battery weight low, as close up front to the drive wheels (and away from the drag castor wheel) - > good call to improve maneuverability - definitely better to keep weight low (at cost of making it more difficult to pull out battery) -> improves maneuverability
