

DPRG RBNV Chat Record – 11/03/2020

Ray

8:16 PM

Lady Gaga?

Ray

8:19 PM

Think how the ai would work at a dprg meeting.. plenty of bald heads there

Ray

8:32 PM

omg I'm having a flashback...

Ray

8:44 PM

Carl and I do an edge transform on the image. imho it is the easiest way to deal with black/white transitions

Carl Ott

8:44 PM

yes Ray - and teh edge transform also helps with teh baldness issue...

Ray

8:45 PM

But you can't do that with the simulator... Can you Ron??

Ron Grant

8:45 PM

Ray, ? Not sure I understand

Carl Ott

8:46 PM

Rons simulator can do whatever - it's totally infinite...

Ron Grant

8:46 PM

you can do edge detect on line sensor

Ray

8:48 PM

Carl How does it help with the baldness issue??

Carl Ott

8:48 PM

no hair - no edges - edge detector has an easy job

Ron Grant

9:03 PM

Carl, search LFS_M for lfs.showSensors

Chris N

9:39 PM

Gotta punch out a little early today. See you all next week.

You

9:39 PM

Bye Chris

Ron Grant

9:48 PM

Carl, you are insane --- and the spider you rode in on!

Carl Ott

10:00 PM

:-)
