Quick update on the '57 Mercedes Benz 190SL project. I've started a YouTube channel to share the journey. Check out the first two videos - which hint at the condition inside the engine. Lemme know what you think about the questions in the video descriptions - Do you see an automatic engine tear down & rebuild? Or would you roll the dice at trying to hand crank it and maybe firing it up? And subscribe for irregular updates as I get things rolling...
