DPRG RBNV Chat Record – December 19, 2023

Ponder SomeMore
7:40 PM
I have not mic today but was wondering why they had the 15-minute break. I didn't hear the reasoning.

7:59 PM
H Guys - I'll start a backup recording now - but I have to hop over to a work call. I'll jump on as soon as I can
Doug Paradis
8:00 PM
Bob Cook's RoboMagellan robot presentation: https://www.youtube.com/watch?v=EZMk40eCld8
His robot's run videos: https://www.youtube.com/playlist?list=PLiogHjvupE6BqIUVyylJFg6cnRw15vqYF
Chris N
8:10 PM
Poor man's docker: "chroot" command in Linux...
Ponder SomeMore
8:18 PM
idk if your Wi-Fi supports 5ghz, but that would conflict less with Bluetooth. could also try a short USB extender for the Bluetooth dongle.
Ponder SomeMore
8:23 PM
ambient, accent and task lighting are variations of indoor lighting conditions

9:10 PM
Ok - one thing to show after all - check out this guy's machine https://youtu.be/lSX9fOSJ0KI?si=tN5U7pm_6D0XKk-R
Carl Ott
9:11 PM
Also - this one from new Zealand https://www.loudersound.com/news/slay-to-pay-beer-vending-machine
and this one - https://www.youtube.com/shorts/Bu0-bw0Jk5Q
Carl Ott
9:13 PM

ok - one more:

https://www.space.com/moon-rolls-royce-nuclear-reactor-concept-unveiled Now available - BUT - where have we seen this before? Anybody remember?

It's the most important device in the universe, Packed with all the analog computational power of a 555 timer... https://youtu.be/phPp5oYnps0?si=XwMQHYiAon4p8tcw https://hackaday.com/2021/09/23/the-most-important-device-in-the-universe-is-powered-by-a-555-timer/
