

DPRG AI Summary of October 2025 Monthly Meeting

Video @ https://www.youtube.com/watch?v=gzj_5sjquQ

Main Discussion Points

DPRG News

- The upcoming Robocolumbus competition will take the place of the November monthly meeting. Email president@dprg.org or secretary@dprg.org if you'd like to come watch or compete, and we'll tell you the address:

git + GitHub talk

Paul presented part 2 of his git + Github talk

AI goes off the rails during an interview

- Thomas Messerschmidt presented a talk on his video dramatization of an event where an AI ran wildly off the rails during an interview with a New York Times reporter.
 - He showed how AI's helped craft the video.
 - He showed the use of Eleven Labs voice synthesis, and its emoting controls for actor voices
 - He played the video itself, which you can jump to in the meeting video - look at the chapters in the description - it's obvious

Git in VS-Code

- Carl showed us how to use VS-Code to do git stuff that Paul had been demonstrating using the CLI and gitk.

Show'n'tell

- Scott showed his Robocolumbus robot, Belch
- Paul & Mark showed improvements to the Makers Pet robot
- Eric showed improvements to his
